

Multi BIO security

iFACE - 800

KEPBER teknicka, we offer devices that are critical to secure access to your device or critical room with the latest bio-electronics technology. " Face scan and/or Finger print and/or RFID card and/or User ID "

iFACE 800 is a time attendance and access control terminal for face and fingerprint verification. Using latest highspeed face recognition , it has extremely high verification speed and low error rate, and is able to effectively prevent duplicated registration.

With its high-resolution infrared night vision light and professional color duo camera, the terminal can carry out quick verification in any environment. What is more, it supports face, fingerprint, user ID, password, RFID card (optional) and various combination methods, in order to satisfy the demands of different users. Moreover, the TCP/IP communication supports connection across internet segments. Its auxiliary input function can be used for linking to Fire Alarm.

Face, fingerprint, user ID, password, RFID card (optional) and various combination methods

- ADMS Function(Optional)
- Multiple Verification Modes: Multi-verification methods (card is optional) , Facial & fingerprint biometric
- Full Access Control Features: Anti-passback, access control interface for 3rd party electric lock, door sensor, exit button, alarm and doorbell
- Good Performance in Dark Environment, Infrared optical system enables machine to work well at night
- Built-in auxiliary input with enhanced flexibility to link with wired detector or emergency switch.

Wiegand Output to use with existing access control Acts like a single door controller

Face Capacity 400 Face Fingerprint Capacity,1000 Templates Card Capacity 1000(Optional), ID or Mifare card Transaction Capacity 100,000 Transactions

Features

- 2.8-inch color display with graphical UI for easy operation.
- Multiple Verification Modes: face, fingerprint, user ID, password, RFID card (optional) and various combination methods.
- Full Access Control Features: Anti-passback, access control interface for 3rd party electric lock, door sensor, exit button, alarm and doorbells.
- Good Performance in Dark Environment, Infrared optical system enables machine to work well at night.
- Built-in auxiliary input with enhanced flexibility to link with wired detector or emergency switch.
- Its auxiliary input function can be used for linking to Fire Alarm.
